

# Corporate Fact Sheet

## Technology Solutions for your Business

BCM Consulting Corporation provides outsourced Information Technology (IT) services to Small to Medium Enterprises (SMEs) and corporate workgroups. Our services include:

- 1. Custom Database Development.** If you've outgrown your current Excel-based system, want to consolidate and share your single-user database solution, or have a unique requirement that existing off-the-shelf software packages cannot do, we can create a solution for you.
- 2. Internet Presence.** We'll get your business online. We can design, develop, and host your website, domain name, and email. If you have an existing website, we can also provide maintenance and updating.
- 3. Consulting and Support.** We'll help you in your technology decisions to make sure you invest in the right hardware, software, and networking technologies. Once you've got everything set-up, we'll help your staff make the most out of it.

## Project Highlights

Here are some of the projects we're proud to help our clients with:

- **The Picture Company.** With 6 stores in the Philippines, and a branch in Kuala Lumpur, Malaysia, we're helping The Picture Company consolidate sales and production data and enhance operations of this growing chain of photo studios.
- **Gemini Group of Companies.** We've designed a system to help Gemini Group manage thousands of daily transactions from over 70 local and overseas sources to ensure that the 50 branches deliver their remittances to customers on time.
- **Carats Manufacturing Incorporated.** Working closely with the design and management team of Carats Manufacturing, we've implemented a redesign of their website to make ordering and accessing product information better for their International customers.
